NATIONAL ANTHEM

Stanza 1

*Nigeria, we hail thee
Our own dear native land
Though tribes and tongues may differ
In brotherhood, we stand
Nigerians all, are proud to serve
Our sovereign Motherland.*

NATIONAL PLEDGE

*I pledge to Nigeria, my country
To be faithful, loyal, and honest
To serve Nigeria with all my strength
To defend her unity
And uphold her honor and glory
So help me God.*

ABOUT THE CHARTERED INSTITUTE OF LOGISTICS AND TRANSPORT (CILT)

The Chartered Institute of Logistics and Transport (CILT) is the world's leading international professional body for all sectors of the Logistics and Transport Industry. The Institute was founded in the United Kingdom in 1919 and granted a Royal Charter in 1926. CILT has a presence in over 100 countries and is headquartered in the United Kingdom. The Nigerian branch of CILT was established in 1958 and has attained a Territorial Status with presence in 13 States of the Federation.

The core of the Institute's functions is human capital development through long-term and short-term professional courses, as well as continuing professional development (CPD) Programmes. At the successful conclusion of the studies and examinations, the Institute's International Secretariat in the United Kingdom issues certificates to students who are successful at the examinations. Certificates issued by the Chartered Institute of Logistics and Transport are international certifications, which are valid and recognized globally. Several Nigerian professionals have attained great heights in the industry (public and private sectors) on the strength of their CILT certification.

As an international Institute with a focus on education and training, the quality and uniformity of standards globally is guaranteed through a centralized process for membership eligibility, examination, and certification. The curriculum, supervision of the examinations and issuance of international certificates are exclusively undertaken by the CILT's headquarters in the United Kingdom.

CILT Nigeria serves as a centre that administers the curriculum and supervises examinations on behalf of CILT. It is emphasized that all CILT professional Certificates are issued and signed by the CILT from its international registered office in the United Kingdom.

The Annual National Conference is one of CILT Nigeria's flagship programmes.

ABOUT THE CONFERENCE

Africa's economic growth, urbanization, and increasing international trade have placed immense pressure on the continent's transportation and logistics systems. A robust and efficient transport and logistics network is vital for fostering economic development, improving connectivity, and reducing inequalities. The 2025 CILT Nigeria National Conference will convene experts, policymakers, industry leaders, and stakeholders to explore innovative strategies, technologies, and policies for building a sustainable, integrated, and inclusive transport and logistics ecosystem in Africa.

The conference will assess the current state of transport and logistics infrastructure in Africa and identify key bottlenecks and areas for improvement, explore cutting-edge technologies and digital solutions that can enhance the efficiency and effectiveness of transportation and logistics operations, discuss policy frameworks, regulatory mechanisms, and public-private partnerships to promote a conducive environment for transport and logistics development, address the challenges of sustainability and environmental impact in the transport and logistics sector in Africa, foster collaboration and networking among stakeholders to facilitate knowledge exchange and capacity building.

The event will also feature the tours, exhibition of transportation and logistics products and services from cognate industries. The conference promises to be highly educative with paper presentations and discourse by seasoned academia and practitioners from across the continent.

WHY ATTEND 2025 CILT CONFERENCE

The event provides a forum for key actors, to interact and network with over 300 logistics and transport professionals from across the country and Africa. It affords delegates the opportunity of having a comprehensive understanding of the current challenges and opportunities in the transport and logistics sector in Africa, identification of practical and innovative solutions that can improve the efficiency and sustainability of transportation and logistics operations, contributing to policy recommendations and best practices to foster a supportive environment for transport and logistics development in Africa, ensure enhanced collaboration and partnerships among stakeholders for knowledge exchange and joint initiatives, and increased awareness of the role of digitalization and sustainable practices in transforming the transport and logistics landscape in Africa, among other benefits.

The conference is aimed at a diverse range of participants, including government officials and policymakers, representatives from regional economic communities and development agencies, transport and logistics industry professionals, international organizations and development partners, technology providers, and innovators in the transportation sector, civil society organizations and advocacy groups focused on sustainable transport.
